

TEXAS WOMAN'S
UNIVERSITY DALLAS

IMPROVING HEALTH
SINCE 1954

Texas Woman's has been serving the Dallas community through clinical education, research, and outreach since 1954, when we established a nursing program at Parkland Hospital.

Located in the heart of the Southwestern Medical District, TWU Dallas today houses the T. Boone Pickens Institute of Health Sciences, which includes highly ranked physical therapy and occupational therapy programs, as well as the renowned Mike A. Myers Stroke Center. The Houston J. and Florence A. Doswell College of Nursing offers undergraduate, master's, and doctoral programs, educating nurses who work throughout Texas. TWU Dallas also offers degree programs in healthcare administration through the Merrilee Alexander Kick College of Business and Entrepreneurship.

TWU Dallas
1,500 Students

As the North Texas Region grows, so will TWU Dallas. Our dream is to **expand TWU Dallas to 3,000 students over the next five years**, to better serve the needs of the DFW community.

DREAM BIGGER AT TWU DALLAS

Expanding the mission and reach of TWU Dallas is a major part of the Dream Big fundraising campaign, which ends in 2026. TWU Dallas President Monica Christopher and her colleagues have set a goal of \$15 million to bolster teaching, research, and community outreach. Our aim is to have a greater impact not only on our students but on the Dallas community at large.
